Summary

Entry-level Python Developer skilled in Python, Django, HTML, CSS, JavaScript, and SQLite. Built full-stack web applications including Hospital Management System, Restaurant App, and E-commerce platform. Passionate about developing scalable and efficient applications with clean code and real-world problem-solving skills.

Technical Skills

Programming Language:: Python

Frameworks:: Django

Web Technologies:: HTML · CSS · JavaScript

Databases:: SQLite

Soft Skills:: Problem Solving · Communication · Team Collaboration · Time Management

Projects

Hospital Management System:

GitHub: <https://github.com/rumamahato/hospital-management.git>

- Developed a web-based hospital management system to digitize patient records, appointments, billing, and medical data.
- Implemented centralized and secure database management to improve data accuracy and reduce manual paperwork.
- Enabled efficient access to patient history and hospital workflows, improving operational efficiency and patient care.

Restaurant Application:

GitHub: <https://github.com/rumamahato/restaurant-application.git>

- Developed a restaurant application to manage menu items, food orders, and billing processes.
- Stored and processed order details for multiple food types, including steamed and fried items.
- Improved order accuracy and service efficiency through digital order management.

E-commerce:

GitHub: <https://github.com/rumamahato/Ecommerce.git>

- Developed an e-commerce application to support online product browsing, ordering, and purchasing.
- Implemented digital payment processing, order management, and delivery workflow.
- Enhanced customer experience and business scalability through an online shopping platform.

Training / Courses

Python and Django — SIPALAYA INFO TECH PVT. LTD.
